REASONS FOR ALLOWANCE

2. The following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record do not teach nor suggest, either alone or in combination, all the limitations of the claimed invention. Bolt ('394) is the closest prior art cited by the Examiner, wherein the invention of Bolt discloses a digital storage media library having failover capability wherein one or more drive are reserved as spare data storage drives and masking the spare data storage drives from the host computers to make them inaccessible by the host computers. Bolt and the prior arts or record do not particularly disclose "code ... operable

to associate each device identifier of the multiple device  
identifiers with at least one respective library partition",  
Bolt further does not teach associating each SCSI ID with a  
respective library partition, and determining a partition  
utilizing one of the communication medium identifiers. In light  
of the foregoing; claims 1, 10, 17 and 23 of the present  
invention are found to be patentable over the prior art.

Claims 2-9, 11-16 and 18-22 further limit the allowable  
independent claims. These claims are therefore allowable for the  
same reason as set forth above.

Any comments considered necessary by Applicant must be  
submitted no later than the payment of the Issue Fee and, to
